### **Comments – Jeremy Slagle**

- So much fun and content I can use in my work.
- Super informative and deepened my ability to utilize the power of illustrator.
- Jeremy is a fantastic workshop leader! I learned so much in his workshop about things I've always wanted to do but never knew how. You can tell he's having fun, too, and that he really loves what he does. One of the best pre-conference workshops I've ever been to. Please have him back again!
- Absolutely fabulous presentation that hit its subject matter square on the head, added bonus useful content, was inspirational, and helped build connections. Loved this presentation so much! Was amazing to have the very first session be exactly what I needed.
- I was absolutely inspired by this workshop and can't wait to take the skills I learned home. Excited to apply them to my regular practice! Truly cutting edge.
- Jeremy was amazing. I learned things from simple to mind blowingly useful. Moments of, how did I not know that? Absolutely loved that we took it back to paint to paper to achieve a digital result.
- Real value add. Jeremy did a great job.
